"What do I do while I watch my boyfriend masturbate?"

Q I want my boyfriend to masturbate in front of me, but what should I do while he's at it?

A Watching your man give himself a hand can be wildly erotic -- for both of you. Next time you're fooling around in bed, tell him how hot it would be to watch him play with himself. No doubt, he'll happily rise to the occasion. As he begins to stroke his shaft, sit back and enjoy the show. Besides turning him on, setting your sights on the way he touches himself is a great way to learn exactly what makes him moan.

You can turbocharge his libido even more by playfully teasing him. Nibble his neck, use your tongue to trace tiny circles over his nipples, gently run your fingers up and down his inner thighs. You'll set every one of his nerves on fire if you fondle his balls or lightly massage his perineum (the super-sensitive spot between his testicles and his anus).

As you feel yourself becoming aroused, you might want to jump in and join the fun. By engaging in mutual masturbation, you're not just getting yourself off in unison; you're appealing to his inner voyeur (trust us, all guys go gaga over visual stimulation). Hands down, it's one of the best ways to totally blow him away.
